Dear Nancy and Jeff:

On behalf of the Department of Large Animal Clinical Sciences, the College of Veterinary Medicine, and the hyperbaric medicine staff we would like to thank you for your generous gift to the hyperbaric program. We sincerely appreciate your efforts and dedication to the College, our programs, and our success. One of the goals of the College is to continue to push the boundaries of veterinary medicine and continually develop new ways of treating and preventing diseases in animals. Both of you have helped us make great strides in the discipline of hyperbaric therapy.

We will make sure that your gift supports the needs of the hyperbaric program in research, training, and infrastructure as we continue to provide new information to the veterinary and medical communities. We will provide periodic updates to you on the progress of the hyperbaric program. You can also access the Veterinary Hyperbaric Medicine Society web site at www.vet.utk.edu/vhms/. We are beginning to develop web based cases, sent to us by hyperbaric therapy providers across the country, showing some of the successes of hyperbaric therapy.

We wish you continued success with Horseshoe Gift Packaging, LLC and if there is anything we can do please don't hesitate to let us know.

Thank you again for the Horseshoe Gift Packaging's 2008 "Angel's Story" donation and your support in so many other ways. Hope that Angel is doing well. Best wishes to both of you.

Sincerely,

Dr. Robert Holland
Department Head

Dr. Dennis Geiser
Assistant Dean
